Course Information

Course title	Agentic AI for Affiliate Marketing
Course code	TGS-2025060552
TSC	Affiliate Marketing-2 (RET-OTO-2001-1.1)
Duration	2 days - 14 instructional hours and 2 assessment hours
Timing	9:00 am-6:00 pm; one-hour lunch excluded, tea breaks within scheduled time
Mode	Instructor-led concept briefings, demonstrations and connected Claude Cowork, Skills, MCP and deterministic-data labs
Trainer	Dr Alfred Ang

Learning Outcomes

- LO1: Analyze affiliate marketing trends and provide updates to partners on new retail and hospitality products and services.
- LO2: Coordinate with affiliates using strategic research to align partnerships and develop an effective affiliate portfolio.
- LO3: Prepare affiliate campaign reports aligned to strategy and ensure compliance with marketing policies and practices.

Assessment Strategy

- Written Assessment (WA-SAQ): three open-ended LO-grouped questions covering K1-K9, 60 minutes, open book.
- Case Study (CS): one coherent scenario with three integrated tasks covering A1-A5, 60 minutes, open book.
- Instrument, duration and LO-level mapping mirror the approved Assessment Plan; the Drive Assessment folder contained no legacy question papers.

Facilitation and Evidence Strategy

- Brief technical concepts with editable diagrams, data contracts, decision rules and worked metrics; keep click paths in the Learner Guide.
- Demonstrate each workflow with supplied sample data before connecting training credentials.
- Ask learners to predict the failure path, execute the test, then capture safe evidence.
- Use lab acceptance checklists as formative assessment and remediation guides.
- Never demonstrate an irreversible schedule or send to a production audience.

Lab 6	186-191	Attribution, Commission and Performance Reporting Agent -> Lab 6 Verification and Failure
Revision, assessment and close	192-200	From Evidence to Assessment -> Thank You

Resources and Contingencies

- Concept-led PowerPoint deck and PDF mirror.
- Learner Guide with detailed procedures and PDF mirror.
- Six self-contained lab folders with README, checklist, supplied records, deterministic validators and evidence templates.
- If a connector is unavailable, use the supplied offline files and preserve the same data contracts.
- If a connector denies access, record the permission boundary and continue with the read-only fallback; never broaden scope or expose credentials.
